Articles Mr Clark
brought

Malta

March 5th 1805. This day I was by the orders of Captn. James Barron. Sent on board the Sloop Hornet, to take Charge of Her till she was put in Commission. In this Situation I continued untile the 21st when she was put in Commission under the Command of Saml Evans Esqr. On the 26th we Sailed from Malta in Company with the Brig Argus for Bomba with Provisions for the Army of Genl. Eaton

March 30th We experienced a most Severe Gale which Continued for two days. without Sustaining any damage.

April 2. We discovered Land which was Cape Dorea, We Stood along the Coast of Africa untile the 5th. When we arrived in Bombay, Which we found to be a most beautiful & Spacious Bay with Regular Sounding from 12 to 4 fathoms water, After Sounding in every part of the harbour we anchored in 4 fathoms water while the Argus's boat went on shore to see for Genl. Eaton

& the Army. Soon after the boat Returned without seeing any of them. April 6th. We left Bomba. & Stood to the East^a close in shore. as far as port Trabuco, but hearing nothing of Eaton we Returned to Bomba at which place we arrived on the 17th where we found Gen^l Eaton and his army. Consist^g of 400 Men Arabs Greeks and Turks encamped about 2 miles from the bay. We there deli= vered the Provisions. Near their Camps we found a large Cistern of excellent water, which served us to water the vessels. Having

very little water on board. While
we lay at this place I had an
opportunity of visiting their camp
where I had the pleasure of being
introduced to the Bashaw and
a number of his leading men
There was with the Army a number
of women. Several of them very
Handsome but their manners
disgusting in the Extreme. —
April 27th. We left Bomba in
Company with the Brig Argus
and Schooner Nautilus (who
had arrived the day before)
for Derne. While the Army set
out the day before for that place

April 28th We Arrived before
Derne an found the Army en-
camped near the Town, we sent
such things as they were in want
of, and anchored close in under
their forts (within pistol shot)
At half past two oclock they
Commenced firing from their
forts which we immediatly
returned. At the same time
the Army attacked the Town
we kept up a close and regula
fire for 4 hours when their
fort was compleatly Silenced
they having abandoned it. we
immediatly manned our

boat to strike their colours
but some of the army getting
in before us. got them. We were
much annoyed by the musquet
of the Enemy a number of Balls
lodging in different parts of the
Vessel, Lt Blodget received a ball
in his watch which saved his
life, we rec.d no material damage
At 5 Oclock the Town was
compleatly our own the Dey
having shut himself up in a
mosque and many of his men
fled the rest according to their
usual custom Kissed the hands
of the Bashaw. Our loss

was trifling only two men killed (Marines) and General Eaton and about (20 wounded the loss of the Enemy not known but supposed it to be great. This fort Consisted of 10- nine pounders we immediatly hoisted the american flag. Perhaps the the first time it ever was on the coast of Africa ——

May the 2d. We left Derne this afternoon (Leaving left the Argus & Nautilus there) and Arrivd at Malta on the 16th. May 21st left Malta with provisions for Eatons Army

May 30th Arrived at Derne found here the Argus, the Hamdeley having left there a few days before, We learnt that an army from Bengaza had encamped near Dere and had come with an intention of retaking the town from us. We took every necessary step to prevent them by making our fort more secure (by placing our army which had increased to the number of 200 in the most Advantageous situations

While lying here I had an opportunity of seeing the town tho' tolerable large the buildings were very indifferent. their houses are butt with flat roofs and not 6 foot high all the front of the town is laide out in beautifull gardens and vinyards with large groves of Date trees, here I spent my time very agreeable going a shore every evening and riding out in the Country.

June 10th At 1 Oclock the Signal was made is that the Enemy

were Advansing from the hill
We weighed in Company with
the Argus and anchored near
in shore At 2 An Action
Commenced between the Enem
and our party about 1 mile
to the eastward of the Town
which Continued Till near
6 when the enemy were com-
-pleatly Routed and forced
to fly during the Action a warm
and Constant fire was kept up
from the two Vessels and fort
the loss of our friends was one
6 Killed and about 20 wounded

June 12th. This evening the Con-
-stellation arrived here from Tripo-
li with the news of peace

June 13. This Evening we began
to get the men on board from
the Camp. At 3 Oclock at night
we finished pulling them on board
with their luggage. (their N.° 126)

Every thing was done in the most
Secret manner that the Arab
& Bedowin Camp might not hear
like we had all got on board
or it might of been attended
with disagreable Circum-
-stances; Among the rest we had
on board was the Bashaws

June 14th Sailed from Derne
for Syracuse —

June 23d Arrived at Syra-
cuse where we found some
part of our Squadron, in
a few days after the Essex
and Constitution Arrived
